

SOLUTION

AMADA[®] **ORDER MANAGER**

AMADA ORDER MANAGER

A BRIDGE BETWEEN ERP AND AMADA ECO-SYSTEM

DATA SHEET

A BRIDGE BETWEEN ERP AND AMADA ECO-SYSTEM

AOM - INTEGRATE ALL AMADA PRODUCTION STEPS

The need to produce smaller and often different series requires always more flexibility and a quick time response towards the market. Thanks to digital networking now it is possible to fully control and manage production orders, saving time and avoiding errors.

Thanks to the AMADA standard data exchange interface, the customer's existing ERP system can be easily connected to AMADA Order Manager (AOM) to allow the production data to be sent to the AMADA machines and for collecting the machine production data.

CLOUD-BASED SOLUTION

Thanks to the cloud-based platform it is possible to access AOM from all places, inside or outside the company and at all times.

PAPERLESS PRODUCTION

Digitalization has come to impact upon more and more areas of our lives including manufacturing industry. AOM fully matches this principle and allows a complete paperless production.

IMPROVED PRODUCTION PLANNING

The production can be easily planned, including all the processes from the customer order up to the end. Due to AOM connection, it is always possible to have an overview of the current status of production operations and production orders.

PRODUCTION CONTROL

Thanks to the intelligent exchange of information, AOM will allow to gain a high level of information in real time, allowing to optimize processes and machine productivity.

As a result

- Full management control of the production.
- Real time tracking and immediate access to reliable basis.
- A unique data exchange interface, it does not matter which ERP needs to be connected.
- Maximum flexibility with three communications channel available.

AOM BENEFITS

Flexibility

Time Saving

Cost Saving

Fully Digitalized

Error Free

Industry 4.0

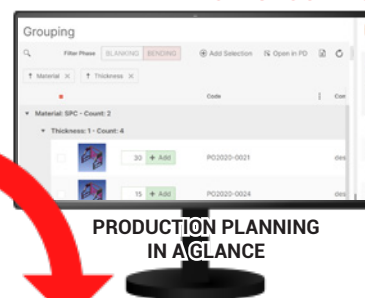

AOM MAIN FUNCTIONALITIES

AOM PRODUCTION ORDERS

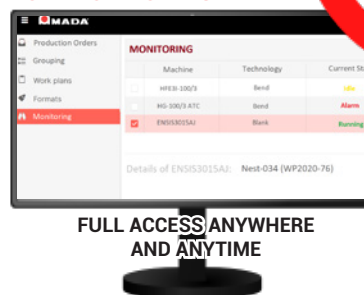

IMMEDIATE ACCESS TO THE PRODUCTION
